Work Experience

Jane Street – Software Engineering Intern

- Date: Jan 2022 – Apr 2022
- Location: New York, New York
- Skills: OCaml, Code Generation
- Description:
 - Designed and developed an original implementation of the XML XSD specification, including code generation of OCaml types and applicative-parser- combinator-based (de)serializers
 - Created a from-scratch API-compatible implementation of Confluent’s Schema Registry in OCaml
 - Contributed better high level code output to Jane Street’s soon-to-be open-sourced Chromium API bindings generator

Tesla – Software Engineering Intern (Firmware Tooling)

- Date: May 2021 – Aug 2021
- Location: Remote
- Skills: Haskell, Firmware, C
- Description:
 - Continued development work on Haskell firmware tooling code base
 - Implemented network scheduler for custom Cybertruck communications protocols in Haskell using novel functional techniques
 - Designed and implemented C API code generation tools for embedded real-time vehicle transmissions in the Cybertruck

TQ Tezos – Software Engineering Intern (Blockchain)

- Date: Sep 2020 – Dec 2020
- Location: New York, New York
- Skills: Blockchain, Haskell
- Description:
 - Converted fragmented Python-based Tezos Kubernetes deployment script to idiomatic Dhall, greatly improving readability and maintainability

- Authored Tezos smart contracts in a Haskell EDSL to automate proprietary applications for permissioned blockchains
- Constructed peer-to-peer staking topology monitoring and visualization infrastructure with Python

Tesla – Software Engineering Intern (Firmware Tooling)

- Date: Jan 2020 – Aug 2020
- Location: Palo Alto, California
- Skills: Haskell, Python, Java
- Description:
 - Developed and maintained large Haskell code base responsible for automated firmware documentation, code, and signal generation
 - Improved Haskell products’ performance and runtimes by over 20% by identifying laziness-related space leaks and rewriting hot code paths
 - Responsible for design and implementation of firmware verification infrastructure employed by entire organization

University of Waterloo – Teaching Assistant (Algebra)

- Date: Sep 2019 – Dec 2019
- Location: Waterloo, Ontario
- Skills: Pure Math, Teaching
- Description:
 - Tutored classes of over 1000 students in number theory and abstract algebra
 - Prepared individual tutoring lesson plans to ameliorate understanding in advanced topics such as quadratic reciprocity or interactive theorem proving

Ericsson – Software Engineering Intern (Performance)

- Date: May 2019 – Aug 2019
- Location: Kanata, Ontario
- Skills: Clojure, Python
- Description:
 - Developed pure functional Clojure metrics infrastructure to monitor complex JVM architectures, allowing for discovery of multiple performance issues
 - Implemented a parser and interpreter for an internally designed performance-testing DSL

CENX – Software Engineering Intern (Test Automation)

- Date: Jul 2017 – Sep 2017
- Location: Ottawa, Ontario
- Skills: Python, Systems
- Description:
 - Developed robust automated Python framework for load-testing web apps
 - Created custom implementation of IETF RFC socket protocols to debug non-standard network stacks

inBay Technologies – Software Engineering Intern (Full Stack)

- Date: Jul 2016 – Aug 2016
- Location: Kanata, Ontario
- Skills: Ruby, Rails, Javascript
- Description:
 - Created internal use development tools backed by Ruby on Rails and Javascript to monitor and debug specialized production systems

Projects

- dhall-python: Python bindings for Dhall, a functional configuration language
- board-to-latex: Turn pictures of math into latex
- rag-shenanigans: Generate ragtime music with AI

Open Source Contributions

- kyazdani42/nvim-tree.lua
 - 9aa8be6 Fix crash from glibc bug
- dhall-lang/dhall-lang
 - b22cce1 Add support for Dhall v19
- dhall-lang/dhall-kubernetes
 - 3367b68 Remove declaration of deprecated python script
- nvim-lua/telescope.nvim
 - 59ef37d Implement shortcut to dynamically use other telescopes
- ujihisa/repl.vim
 - 4910aa7 Add support for Racket

Misc Experience

- Swim Instructor: Certified by Red Cross and Life Saving Society
- Accordion Teacher: Offering private lessons
- Camp Counsellor: For youth robotics camps

Education

- University of Waterloo (May 2023): Bachelor's degree, Computer Science

Coursework

- Functional Programming (Haskell, Scala, Scheme)
- OOP Programming (C++)
- Formal Logic and Interactive Theorem Proving (Coq)
- Compilers and Interpreters
